SKILLS & ABILITIES

- Python
- Django
- PostgreSQL
- SQL
- Git

- JavaScript
- HTML
- CSS
- Bootstrap

PERSONAL PROJECTS

Aug. 2023 – Nov. 2023

Blog App (Web)
Python, Django, PostgreSQL, Bootstrap and JavaScript

A simple blog app with publications, comments, likes system and User preference settings (redirection, publications feed sorting, etc). Users can do CRUD operations and like or dislike publications as well as editing the publication's showing preferences.

Jan. 2024 – Dec. 2024

Chat App (Web)
Python, Django, PostgreSQL, Redis, Cloudinary, Bootstrap and JavaScript

A real-time chat application that incorporates several features similar to WhatsApp, including statuses, notifications, and contact management. The app also supports CRUD (Create, Read, Update, Delete) operations, allowing users to manage their messages and contacts effectively.

EDUCATION

June 2028

Information Systems Technologist
Antonio Jose Camacho University

Studying core technologies and principles of software development, including: database management, web development, data structures, algorithms, and software engineering fundamentals. Coursework focuses on both theoretical concepts and practical applications in modern development environments.
